**COMMENTS INVITED ON APPLICATION OF BELL SOUTH  
TELECOMMUNICATIONS, INC. TO DISCONTINUE DOMESTIC  
TELECOMMUNICATIONS SERVICES**

**WC Docket No. 05-325**  
**Comp. Pol. File No. 730**

**Section 214 Application**

**Applicant: BellSouth Telecommunications, Inc.**

On November 1, 2005, BellSouth Telecommunications, Inc. (BellSouth or Applicant), located at 675 West Peachtree Street, Atlanta, GA 30375-0001, filed an application with the Federal Communications Commission (FCC or Commission) requesting authority to the extent necessary, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue the provision of its tariffed domestic Exchange Access Connectionless Data Service (a.k.a. BellSouth Exchange Access Connectionless Data Service) (XACDS) in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee.

BellSouth indicates that XACDS was originally tariffed to provide a connectionless, packet-switched data service allowing for the interconnection of local area networks or other compatible customer equipment.<sup>1</sup> BellSouth states that the XACDS switch used to provide this service utilizes address information contained in the header of each of the customer's data packets to route the customer's data without the establishment of a fixed path within the XACDS network. BellSouth indicates that currently it does not have any customers for this service, and that there is no longer any vendor or technical support for the service within the industry. BellSouth asserts that former customers have either converted to substitute BellSouth services such as Frame Relay Service or ATM Service, or to comparable services provided by BellSouth's competitors. BellSouth seeks to discontinue XACDS as soon as it receives the necessary regulatory approval, and states that it plans to revise its FCC tariff to remove the service. BellSouth further states that it is a dominant carrier in the states where it offers XACDS.

---

<sup>1</sup> XACDS is listed in Section 21.2 of BellSouth's FCC Tariff No. 1.

In accordance with section 63.71(c) of the Commission's rules, BellSouth's application will be deemed to be automatically granted on the sixtieth (60th) day after the release date of this public notice, unless the Commission notifies BellSouth that the grant will not be automatically effective. Accordingly, to the extent these services are subject to section 63.71(c), absent further Commission action, BellSouth may not terminate service until **January 17, 2006**. The Commission will normally authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

This proceeding is considered a "permit but disclose" proceeding for purposes of the Commission's ex parte rules, 47 C.F.R. §§ 1.1200-1.1216. Comments objecting to this application must be filed with the Commission on or before **December 19, 2005**. Such comments should refer to **WC Docket No. 05-325 and Comp. Pol. File No. 730**. Comments should include specific information about the impact of this proposed discontinuance on the commenter, including any inability to acquire reasonable substitute service.
